

GLOBAL

The growing global community for luxury property continues to impact this marketplace. Recognizing the need to be properly positioned in the path of a burgeoning international interest, HÔM became the exclusive affiliate of Sotheby's International Realty. This association was timely, if not prescient. The properties of our clientele are exposed globally in the most highly-trafficked internet destinations and print media and are presented within the Sotheby's International Realty network of over 600 offices in 46 countries, working together to facilitate real estate sales in excess of \$100 billion (USD) annually - by far, the most successful real estate affiliation in the world.
